

About me, skill

- Cotutelle PhD student at University of Bordeaux and University of Sciences, Techniques and Technologies of Bamako
- Assistant Teacher-Researcher at University of Bordeaux and University of Sciences, Techniques and Technologies of Bamako
- Engineer in Networks and Telecommunication (2012)
- **Skills** : Programming with Java, Python, C/C++ (Intermediary), IoT Prototyping and evaluation, Simulation with EdgeCloudSim, Mininet (Beginner), System administration (Linux/Windows), DBMS : MySQL, PostgreSQL, etc.

Research, Testbed

Actually

- User-centric Security and Privacy in IoT
- Context-aware Security and Secure context-awareness management in IoT
- IoT Service placement strategies in Edge Computing Infrastructure

Next

- C-ITS and Vehicular Networks
- Artificial Intelligence techniques for security

Testbed : not much experience

- FIT IoTLab : Just hear about it
- WaIT : Had 10 days training on it
